Our Community Clubs

The wheels are no good without hubs. The world won't succeed without community clubs.

It is the community spirit of doing and giving.

That gives the zest that makes life worth living.

The getting together, and the unselfish labor.

That make life easier for the poorer neighbor.

By giving him hope—making the outlook bright.

Which expands and reflects like a beacon light.

Reaching far out over land and sea. And the blessing comes back to you and me.

So here's to the members of the Community club.

(Without which the world would have no hub.)

Who have given so much to others cheer.

"We wish you all happiness this New Year!"

And remember that when you give of your time

And that very much needed "Com-mu-ni-tal" spirit.

That your deeds multiply and reach afar.

Until it touches Bethlehem's Star. We sorely need the community clubs that hold the spokes that supply the hubs.

The Government, the Financiers grim—The Politicians of every shade and vim—They—they all, they fashion the sim. But they can't go far—or go far wrong.

If the people be kind, are united and strong: So let us all pull together in the community club. And we build a solid foundation in the world wheels hub. —G.B.

On motion of Councillor Leggett, that action be given to the introduction of a By-Law concerning the appointment of a Returning Officer for the holding Town Election for the year 1947.

By-Law No. 47-1 then received its three readings in regular form.

On motion Council was regularly adjourned.

SATURDAY NIGHT CLOSING

At this season of the year, immediately after the Christmas rush, the old question of early closing on Saturday nights looms to the front, and at present it is rather a jumbled mixture of some closing and others staying open.

We are not taking sides or upholding or defeating any proposition as it does not concern this newspaper, whether or not government control is needed to regulate his business in this line. One other point that is worth mentioning, and that is the fact that by staying open on Saturday evening it is a service rendered to the trading public, especially the farmers who usually come to town on Saturday night. It must be realized by all that service is just as an important part of merchandising as any other phase of the selling program.

On the other hand many places of business do not consider it worth while to remain open on a Saturday evening as the amount of business does not warrant the burning of light and heat and in most instances paying overtime to the employees of the establishment. This is a factor that should be considered. Every unnecessary expense that is incurred in business makes the chances of profit that much less. We are not referring to profit as a bogey, as some political minds would think, for there is little doubt that business must receive a fair profit if it is to survive.

One other point that favors early closing is that it is the trend in other towns of like size. Whether this is worth mentioning is questionable because what other towns do should have no bearing on the way business hours are conducted in Wainwright.

We have said enough to show that it is a tangled problem, who, how or in what way it is to be unsnarled we do not know.

One thing that this paper has advocated for the past two years, and that is uniform closing hours on Saturday night. There must be nothing more distasteful to a visitor of Wainwright than to walk down main street on Saturday night and notice some stores open and some closed. If a system of uniform closing were inaugurated it would at least appear to be better than the present hit and miss conglomeration.

Farmers would be the people that are most affected. Maybe their views could be very well expressed through the "Letter to the Editor" column in forthcoming issues of the Star. If you have anything to say on the matter you are welcome to say it there.

NEW YEAR FOR BOARD OF TRADE

Any organization, if it is to function properly, must have members for support. The Wainwright and district Board of Trade is no exception, and with the dawn of a new year it is time to renew the membership cards in this organization.

In the past they have been a sadly lacking feature of the local Board of Trade, and that is the fact that farmer members were almost non-existent. As the name implies, the Board of Trade is an organization composed of business people and farming being the greatest business on the map in this territory, it is only right that partakers in this business should belong to the Board of Trade.

While most anyone is welcomed to attend the meetings of the B. of T. it gives a false feeling of security to the officers and executive of any organization to see only a few members present and the rest visitors. One advantage of becoming a member is the right to vote on matters that effect everyone's everyday life. This feature alone is worthy of the small membership fee that is charged.

At present the B. of T. meets every month, but it is hoped that in the not too distant future, meetings will be able to be held more often.

The editor along with four other delegates from Wainwright had the occasion to visit Vermilion and be a guest of the Vermilion Board of Trade last week, and there is little doubt that the reason that our sister town is such a booster is because of their strong Board of Trade.

Wainwright has the same opportunity to make Wainwright a booster town through its Board of Trade but not until the town gets behind the organization and backs and works for it to the limit.

A membership committee under the chairmanship of Mr. E. Walker has been appointed, but in case the committee members do not happen to get around your way, contact them and they will sign you up for 1947. Plans are being laid for the coming year and it is going to take some hard work on everybody's part to foster them and make them a reality. But after all if Wainwright is to advance from the 10 mile radius town that it is, to the forty mile radius town that it could be, it will be well worth it.

Do it NOW!
 He who gives quickly receives more money today than he who waits for tomorrow. Get your Chinese relief of suffering now. Chinese victims of war and famine.

...the only food for him, and millions like him, in war-ravaged China

This old peasant, his farm devastated by the Japanese, is too weak to work. His diet for months has been grass and roots. Of China's people, 83 per cent. are farmers. Millions are in urgent need of food, clothes, medical supplies. UNRRA's work is ending; voluntary agencies must carry on. Canada must do her share. Will YOU help? China, a good neighbor and customer, will not forget.

This is the only national appeal to be made in Canada within the next twelve months for Chinese relief.

Be Generous! China, a Good Neighbor, calls to YOU!

Another Business Changes Hands

In accord with the popular trend in Wainwright another business changed hands in town last week when Mr. A. Kristenson, owner of Tony's Service Station, sold the garage and service station to two new owners to the business Mr. L. Dahl and Mr. J. Stranahan.

Mr. Kristenson (Tony as he is known to everyone) stated in an interview with the Star, that he had no definite plans for the future. At present he is taking life easy and intends to look things over before deciding anything definite. Tony went into the garage business in April 1944, succeeding Mr. R. Bond.

The new owners expressed their keenness in entering into this phase of business life in Wainwright, and stated that they were very confident in Wainwright and its people.

Both Lawrence and Jimmy have been in the trucking business in Wainwright for the past few years, so that they are not newcomers to business circles by any means. At present they are both busy getting things lined up, and with a new mechanic, as stated in their announcement advertisement in this weeks Star, are prepared to give the motoring public the utmost in service. The new name of the garage is Corner Service Station.

No Fall Season Here On Muskrats This Season

There will be no fall season on muskrats in that area of the province lying south of the North Saskatchewan River in 1947. E. S. Huettis, Alberta Fish and Game Commissioner, in making this announcement Monday, explained that some time ago, his department had been approached with the proposal that such a season be granted.

It was intimated in the proposal, Mr. Huettis continued, that there were large numbers of muskrats in shallow sloughs throughout the area which would be lost before the usual spring season due to the sloughs freezing to the bottom. Officials of the department had found that no such difficulty should be anticipated. This finding was given as the reason for not granting the fall season.

A good plan has a place for everybody.

200 Men of Reserve Army
Will Stage Winter Exercise

Most ambitious post-war activity
to date of the reserve army in Al-
berta, Winter Exercise Husky will
be held at Wainwright from Feb.
17 to 28, according to Brig. J. C.
Jefferson. He is in command of the
18th Infantry Brigade which will
carry out the exercise.

It is expected that approximately
200 all ranks will take part, includ-
ing components of contributory ser-
vices. Reserve infantry units invited
to send sub-units include the Loyal
Edmonton Regiment, the South
Edmonton Regiment and the Calgary
Highlanders.

Although some reserve soldiers
will attend from Edmonton, Brig.
Jefferson said the bulk of the
strength of the northern Alberta
contingent would come from Grande
Prairie, Vegreville, Vermilion and
Ross Creek.

The exercise will be modelled on
Exercise Muskox and just as that
exercise in the Far North served to
acquaint regular soldiers with win-
ter conditions and equipment, so will
Exercise Husky familiarize reserve
soldiers with somewhat modified
winter conditions.

Calgary Highlanders "C" company
from Banff is expected to provide
ski instructors to train the infantry
men in this form of travel. Snow-
shoe training will also be carried out
and snowmobiles used in the Far
North will make their appearance at
Wainwright. — Edmonton Journal

World Of Wheat

SPREAD OF WINTER WHEAT

A number of agricultural authori-
ties have been inquiring about the
increasing use of winter wheat. I
have just taken off the figures from
a survey made by the Research De-
partment of the Seale Grain Com-
pany as to where winter wheat was
being grown, the varieties in use and
whether the crop was increasing or
not. The results are interesting. They
indicate that this last year, some
winter wheat was sown in 12 out of
the 17 Crop Districts in Alberta, and
in 7 out of the 9 in Saskatchewan.
Practically none was sown in Mani-
toba. The winter wheat production
two years ago was approximately
one million bushels. Last year, be-
tween two and three million, and the
1947 crop it seems may be around
six million bushels. These consider-
able increases have been brought
about mainly by the 10 cents higher
price for winter wheat than for 1
Northern spring wheat. Indicating
the immediate effect that changing
price has on inducing farmers to
grow more or less of any crop. Gov-
ernments, therefore, that want in-
creased production in this or that
crop or product, should take notice
of the effect of higher prices. Raise
the price and farmers will quickly
produce more without any urging or
exhortation.

THE WORLD OF FOODSTUFFS

World flaxseed production for 1946
is estimated at 141.6 million bushels,
some 7% above the 1945 crop, and
4% above the 1935-36 production of
136.8 million bushels.—Seeding of
winter wheat in the United Kingdom
has been delayed owing to the pro-
tracted harvest and abnormal rain-
fall, and a considerable acreage will
probably not be sown.

The South African wheat crop is
estimated at 18,264,000 bushels, an
increase of approximately 100% over
last year's crop of 9,496,000 bushels.
—The Canadian Government's seed-
ing plans for 1947 call for 24 million
acres of wheat, a reduction of ap-
proximately 2 million acres from the
1946 acreage of 25,900,000 acres.

A fault once denied is twice com-
mitted.

VE9AL"GOD BLESS YOU ALL,
AND THANKS!"

There's great satisfaction in a job
well done. That satisfaction is inter-
ested manyfold if the job is a humane
human deed. The Red Cross, byers
Flour Mills of Canada, and CICA
are experiencing such a sensation
today as result of their efforts on
behalf of two grief-stricken families
—the Millers of Hanna, Alberta and
the McNightings of Ardrossan. In
each case fire rased their homes,
leaving them grief-stricken through
loss of children.

Hal Yozsa, the "Uncle Sam" of the

popular "Your Little Christmas
Program" immediately launched a
Fire Fund campaign with all pro-
ceeds to be routed through the Red
Cross, Humber of Hanna, bless
their hearts, want it nearly \$5000 in
cash, plus two truckloads of supplies.
The campaign is now closed and
we take this opportunity to convey
thanks to all concerned by reproducing
the letter Mr. Yozsa received from
Mr. Miller:

"I never thought that people would
go to all this trouble for me and
my family. My wife and I send you
all our deepest thanks—deeper than
you can imagine.
What I have to do now and with
my wife and Jean will live to enjoy
your wonderful gift. God bless you
all and thanks!"
